Diesel price cut, petrol rate unchanged

Mainly because of lower prices in the international market, the caretaker government on Thursday reduced the prices of petroleum products by about Rs4 to Rs7 per litre, except that of petrol, for the next fortnight starting Dec 1. However, it increased the price of liquefied petroleum gas for the month. In a late-night announcement, the ministry of finance said the government had decided to revise the fuel prices for the fortnight starting Dec 1, as recommended by the Oil & Gas Regulatory Authority (Ogra). Karachi industrialists announce shutdown on December 4

Industrialists in the economic nerve centre of Pakistan have announced a complete production shutdown on Monday (Dec 4) to force the caretaker government to reverse the [unprecedented hikes](#) in the gas tariffs. They estimate a per day export loss of \$47 million from the port city. Businessmen have already displayed protest banners at the offices of all trade associations, demanding the government to immediately bring down the gas rates to Rs1,350 per mmBtu approved by the Oil and Gas Regulatory Authority (Ogra) instead of the high tariffs of Rs2,100-2,600 per mmBtu. Urea availability for wheat crop ordered

The Senate Standing Committee on National Food Security and Research asked the Ministry of National Food Security to urgently address complaints of farmers regarding non-availability of urea fertiliser for the wheat crop in the country. Despite a reported surplus, the fertiliser was found to be scarce in the market with black market prices soaring to Rs5,600 per bag, well above the government-controlled rate of Rs3,560 per bag, Chairman of the Committee Syed Muzaffar Hussain Shah said while presiding over a meeting of the committee in Islamabad on Thursday. Disruptions, low volumes hit auto part makers

The auto industry is facing a severe setback as the investments made are taking a hit due to supply chain disruptions and weak demand. Despite significant investments in the latest machinery and infrastructure, the underutilisation of resources is becoming a growing concern for the industry. "Our efficiency got affected due to current economic conditions as vendors' current capacity utilisation is between 60 to 70pc," said Haroon Arshad, Chief Executive Officer, Ravi Autos Sundar (Pvt) Ltd while talking to journalists during their visit to vendor manufacturing plants in Lahore. FBR staff unveiled as non-filers

Hundreds of employees of the Federal Board of Revenue (FBR) are chronic non-filers, exposing them to the risk of severe penalties and putting the resolve of the tax administration to broaden the national tax base to the test. Official documents and background interactions with the tax authorities revealed that a large number of the employees of the FBR have not filed their tax returns for tax years 2021, 2022, and 2023. Some have filed returns for one year but then did not file their annual statutory income tax and wealth statements for another two years, showed the documents. In certain cases, the returns were not filed for the current tax year whose last extended date for filing was October 30th. [Click to see more](#)

Rupee gains as SBP reserves rise by \$77m

The foreign exchange reserves held by the State Bank of Pakistan (SBP) recorded a week-on-week increase of \$77 million to \$7.257 billion during the period ended on Nov 24, the central bank announced on Thursday. In the preceding week, the SBP attributed an outflow of \$216m to debt servicing but didn't explain the reasons for this buildup in reserves. Bankers say the SBP regularly buys dollars from the banking market and this \$77m rise is the reflection of this practice. The government has informed the nation that the country is expected to receive up to \$50bn in investment over the next three to five years. However, these reports of billions of dollars could not change the market sentiment, which looks dormant. [Click to see more](#)

Analyst Certificate:

The Research Report is prepared by the research analyst at WE Financial Services Ltd. It includes analysis and views of our research team that precisely reflects the personal views and opinions of the analysts about the subject security(ies) or sector (or economy), and no part of the compensation of the research analyst(s) was, is, or will be directly or indirectly related to the specific recommendations and views expressed by research analyst(s) in this report. In addition, we currently do not have any interest (financial or otherwise) in the subject security(ies). The views expressed in this report are unbiased and independent opinions of the Research Analyst which accurately reflect his/her personal views about all of the subject companies/securities and no part of his/her compensation was, is or will be directly or indirectly related to the specific recommendations or views expressed in this report.
